

Honda Grom 2014-2015 Fender Eliminator Kit

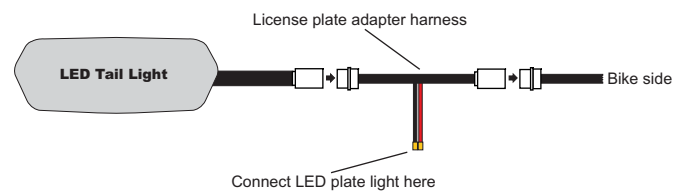

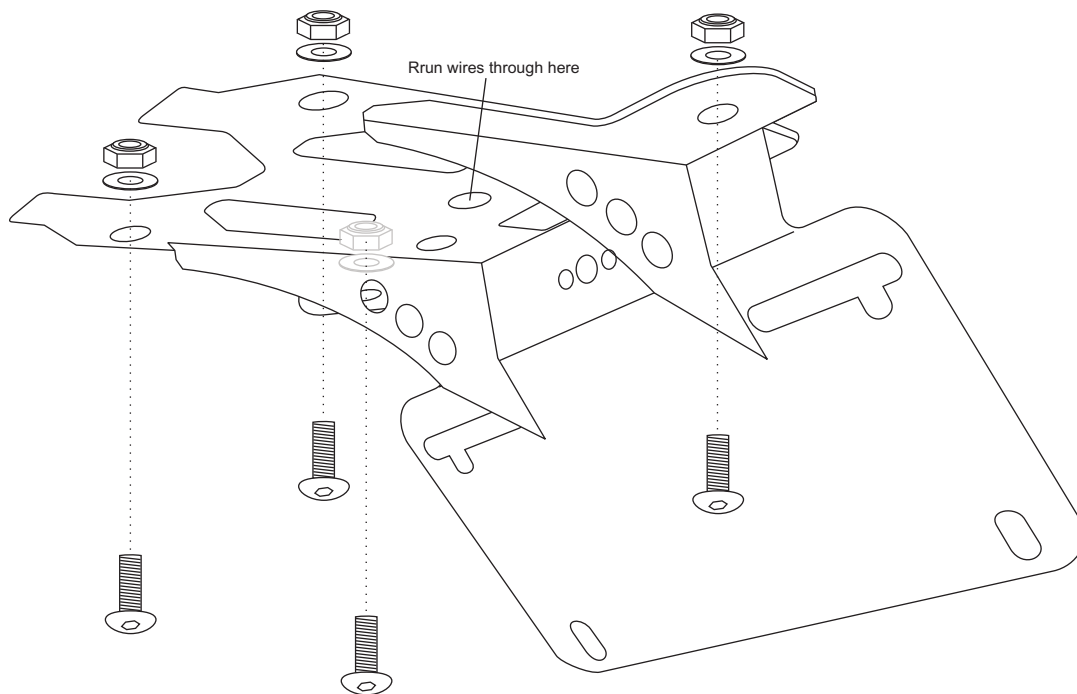

[Version 1.2]

Parts List

x1 License plate holder
x1 License plate LED light
x1 License plate LED light adapter harness
x4 M6x16mm allen bolts
x4 M6 nylon lock nuts
x4 M6 large OD washers

x4 M8x20mm allen bolts
x4 M8 nylon lock nuts
x4 M8 washers

 NOT COMPATIBLE WITH FACTORY TURN SIGNALS
WE RECOMMEND AN INTEGRATED TAIL LIGHT

1. Remove seat
2. Follow the turn signal/license plate light 4 wire harness up towards the right side of the bike near battery and unplug it.
3. Remove the 4 bolts from the top holding down the factory rear fender. These are no longer needed.
4. Remove the fender along with the harness
5. Install the license plate holder onto the underside where the factory fender was just removed. Make sure to insert the 2 tabs in front and 1 hook in rear
6. Mount license plate holder screwing upwards and securing with four M8x20mm bolts, M8 nuts and M8 washers above
7. Mount the LED license plate light to the license plate holder and run wires up through center hole
8. Connect the license plate LED light adapter harness to the LED light and plug it in between tail lamp harness and bike harness
9. Mount the license plate to the plate holder using the four M6x16mm bolts, M6 washers, and M6 lock nuts from this kit.
