

Honda Ruckus 2003-2024 Fender Eliminator Kit

Parts List

- x1 License plate holder
- x1 Chassis bracket
- x7 6x12mm allen bolts
- x7 6mm washers
- x4 6mm nylon lock nuts
- x2 OEM signal adapters
- x2 Aftermarket 10mm signal adapters

Recommended parts

Loctite or thread sealer

1. Remove rear fender. 1 bolt to remove the upper cover, then 3 more bolts to remove the fender assembly. These bolts will no longer be needed. Unplug the tail lamp and turn signal wires.

2. Remove the tail lamp. 2 bolts from the rear. Keep these for reuse later.

3. Mount the chassis mount to the plate holder to the tail lamp using the 2 bolts removed from step 2. Use a drop of Loctite or thread sealer for these bolts

4. Mount the entire assembly from step 3 onto the bike using the 3 M6x12 bolts and washers in this kit. Use a drop of Loctite or thread sealer for these bolts

5. Plug the tail light back in

6. Mount license plate to plate holder using four 6x12mm bolts, washers, and lock nuts from this kit.

7. Check all lighting

Optional:

Aftermarket: Mount aftermarket turn signal adapters to license plate upper mounting holes on plate holder using two 6x12mm allen bolts, washers, and nuts. Wiring may be required

OEM: Remove the OEM turn signals from the factory fender and mount onto the OEM turn signal brackets, then mount to chassis bracket using same screws from step 3 above.
