

Kawasaki ZX10R 2011-2015 Fender Eliminator Kit

Parts List

- x1 License plate holder
- x1 Fender hole block plate
- x1 Left fender bracket
- x1 Right fender bracket
- x1 License plate LED light
- x1 License plate adapter harness
- x4 6x12mm allen bolts
- x2 6x20mm allen bolts
- x2 6x30mm allen bolts
- x10 6mm washers
- x6 6mm nylon lock nuts
- x2 OEM signal adapters
- x2 Aftermarket 10mm signal adapters

1. Remove rear seat and unbolt rear fender. You no longer need these bolts

2. Unplug left and right turn signal connectors as well as license plate light connector

3. Attach left and right fender brackets to same mounting points removed from step 1 using two 6x20mm bolts and washers. See illustration 1.

4. Attach license plate holder and fender hole block plate using two 6x30mm bolts, washers and nylon lock nuts. See illustration 2.

5. Attach the LED license plate light to plate holder. Feed wires through rear hole on fender hole block plate. Attach adapter harness to LED plate light (Black>Black wire and White>White wire) and plug it back into bike removed from step 2.

6. Mount license plate to plate holder using four 6x12mm bolts, washers, and lock nuts from this kit.

7. Optional: Mount OEM or aftermarket turn signal adapters to license plate mounting holes on plate holder using two/four 6x12mm allen bolts, washers, and nuts. Install OEM or aftermarket turn signals onto adapter and route wires through rear hole of the fender hole block plate and plug into appropriate plug removed from step 2. Aftermarket signals may require wiring. Refer to illustration on right to mount factory signals.

8. Check all lighting
