

# Yamaha FZ1 2006-2015 & FZ8 2011-2013 Fender Eliminator Kit

[Version 1.2]

## Parts List

- x1 License plate holder
- x1 Bracket spacer
- x1 License plate LED light
- x1 License plate adapter harness
- x4 M6x16mm allen bolts
- x4 M6 large OD washers
- x4 M6 nylon lock nuts
- x4 M8x25mm allen bolts
- x4 M8 washers
- x4 M8 nylon lock nuts
- x2 OEM signal adapters
- x2 Aftermarket 10mm signal adapters

1. Remove rear seat and unbolt rear fender (4 bolts).  
You no longer need these bolts

2. Unplug left and right turn signal connectors as well  
as license plate light connector

3. Install the license plate holder to the bracket spacer  
to the bike according to illustration on right using four  
M8x25mm bolts, M8 washers and M8 lock nuts.

4. Attach the LED license plate light to plate holder by  
feeding the wires through the center hold and securing  
with the 2 nuts. Attach adapter harness to LED plate  
light (Black>Black wire and Red>White wire), then feed  
wires through center hole on the bracket spacer and  
plug it back into bike removed from step 2.

5. Mount license plate to plate holder using four  
M6x16mm bolts, M6 large OD washers, and M6 lock  
nuts from this kit.

6. Optional: Mount OEM or aftermarket turn signal  
adapters to license plate mounting holes on plate  
holder using two/four M6x16mm allen bolts, large OD  
washers, and M6 lock nuts. Install OEM or aftermarket  
turn signals onto adapter and route wires through rear  
hole of the fender hole block plate and plug into  
appropriate plug removed from step 2. Aftermarket  
signals may require wiring. Refer to illustration on right  
to mount factory signals.

7. Check all lighting
