

Turn Signal Brackets for Ducati Performance LED Turn Signals
[Clamp around style w/ 3mm groove Ducati OEM part# 96680961BA - Panigale/Streetfighter V4/V2]
SKU: TSB-DP-3MM

1. Measure the groove width and make sure it is 3mm

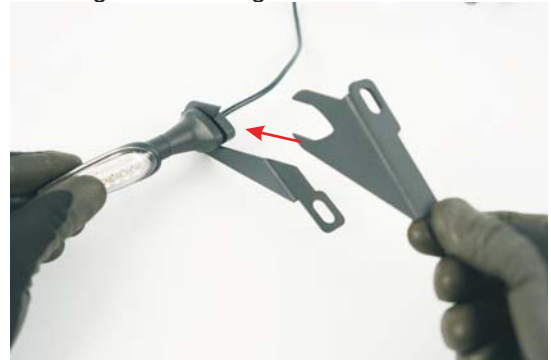

2. Insert/slide the rear facing bracket from rear to front onto 3mm groove.

Step 2 shown from other angle

3. Insert/slide front facing bracket from front to rear, until the 2 lower elongated hole aligns from each bracket.

4. Repeat other side. Now ready to mount on back of plate holder for Ducati standard fender eliminator kits
